

Enlightened Series

THE EMPEROR E THE PRINCE E

An Unforgettable Listening Experience

All of the magical technology in the amazing **Hansen Audio THE GRAND MASTER**, has now been fully incorporated into the new **EMPEROR E and PRINCE E!**

Both **THE EMPEROR** and **PRINCE** have been completely re-configured, redesigned and updated. A new industry standard has been set.

Exquisite in form and in sound.
Authoritative, Powerful and Delicate when called upon.
The result is perfect acoustic balance and harmony!

A Revelation! Pure Joy!

The **EMPEROR E** and **PRINCE E** incorporate the new Hansen Audio “Luxury Leather (Animal Free)” finish!
Pure Beauty!

An unforgettable listening experience!

The Hansen Audio Exclusive Drivers – A Technological Break Through

THE EMPEROR E is a 6 driver, 3 way, floor standing speaker using **Hansen Audio's** proprietary hand assembled drivers. The two Woofers and the two Mid Band drivers are engineered, designed and manufactured by **Hansen Audio** to match perfectly the two High Precision Tweeters.

THE PRINCE E is a 4 driver, 3 way, floor standing speaker using **Hansen Audio's** proprietary hand assembled drivers. The Woofer and the Mid Band driver are engineered, designed and manufactured by **Hansen Audio** to match perfectly the two High Precision Tweeters.

All **Hansen Audio** manufactured drivers use exotic **Multi-Layer Composite Sandwich** cones, resulting in the best **Sound Wave Deformation Prevention** in driver technology today. The inert composite sandwich material has no sonic signature and therefore is completely **neutral in sound**. The finished driver, utilizing our amazing powerful motor assembly, has the **fastest attack time**, the **quickest recovery time** and most **accurate tracking** possible.

The Hansen Audio Enclosure – A New Standard

Having designed and engineered the finest drivers and crossovers available, the task of designing the perfect enclosure begins. The traditional “panel construction” enclosure had to be abandoned. The result had to be a free flowing organic design to prevent any diffraction distortion. To accomplish this, the graceful enclosure incorporates the exclusive **Hansen Audio Sound Wave Diffraction Distortion Elimination** technology. The enclosures had to be “**Dispersion Coherent**”. The finished speaker had to be “**Phase Coherent**” both acoustically and electrically. The **Hansen Audio Enclosures** meets all of the desired sonic parameters. A **New Standard** had been set.

THE EMPEROR E and **THE PRINCE E** in the final stage are hand completed by artisans in the beautiful Hansen Audio New “Luxury Leather (Animal Free)” finish.

Specifications

Time Coherent	Dispersion Coherent	Tonal Accurate	True Dynamic
Nominal Impedance: 6 ohms	Woofers: Hansen 269 mm	Mid Band: Hansen 182 mm	Tweeters: 25 mm Dome
Freq. Response: EMPEROR - 19 Hz to 23,000 Hz;		PRINCE - 21 Hz to 23,000 Hz,	
Sensitivity: EMPEROR - 89 db;	PRINCE - 87 db		
Finishes: Hansen Audio “Luxury Leather (Animal Free)” - Black or Stone or Terra Cotta			
Grilles: Driver Protection Grilles Included			
Crossover: Hansen Audio “Enlightened”			
Size: EMPEROR:	Height – 61 inches	Width – 14 inches;	Depth – 24 inches Weight: 450lbs (In Crate)
Size: PRINCE:	Height – 41 inches	Width – 14 inches;	Depth – 20 inches Weight: 285lbs (In Crate)

Hansen Audio High Performance Loudspeakers are the new benchmark by which all High End speakers are judged, worldwide. All of the Hansen Audio speakers deliver flawless, crystal clear sound over the entire audible range; at whisper volume or when projecting the visceral audio of your favorite dynamic disc. Analog or digital source materials are all reproduced with uncanny realism. Stereo Music or Home Theater is captured as pure as the signal allows.
