

Let Us Entertain You

- 3-way open battle dipolar loudspeaker
- 1-inch DTT/WaveGuide tweeter
- 5 ½-inch HCC midrange driver

R 907

A smaller version of the Jamo R 909, the new R 907 tower speaker is similarly designed for the true audiophile—but designed to work in situations where space is at a premium. Like the R 909, the R 907 features dipolar engineering, which means that the sound is distributed from both the front and the back of the speaker. The reflected sound from the rear adds ambience and gives the impression of a much larger room—in other words, a more lifelike live performance sound.

By using dual 12-inch woofers, rather than the 15-inch drivers found in the R 909, Jamo engineers were able to make the R 907 approximately

7 percent shorter and 10 percent slimmer than the larger model, making it ideal for smaller living spaces.

Available in striking high-gloss red or black finishes, the R 907 is sure to attract attention not only for its unique design, but for its incredibly detailed sound reproduction. The open design also allows you to see the quality components that make the Jamo R 907 so remarkable: two 12-inch woofers, the Hard Conical Cone midrange driver and the premium DTT tweeter. From deep, precise bass to startlingly concert-like vocals, we've spared no expense to deliver sound in its purest form.

Specifications

System Type	3-way open baffle dipole
Woofer (mm/in)	2 x 305 / 2 x 12
Midrange (mm/in)	140 / 5 ½
Tweeter (mm/in)	25 / 1 DTT
Power (W, long/short term)	350 / 500
Sensitivity (dB, - 2,8V / 1m)	89
Frequency Range	35 - 30.000
Impedance (Ohm)	4
Weight (kg/lb)	58 / 127.9
Dimensions (mm/in, H x W x D)	46.8 x 17.3 x 19.2 / 1189 x 440 x 487
Finishes	Piano Black, High Gloss Red
