

ORPHEUS

The Margules Orpheus is an outstanding solid performance loudspeaker with extremely accurate sweet dynamic sound that reveals spectacular detail, unveiling the most subtle variations with astonishing transparency and good efficiency.

The Margules Orpheus is a three drivers system in a 2.1 configuration and custom finish. All its drivers are aluminum ceramic and titanium voice coil with an extremely low mass, high internal sound velocity and ultra-low distortion in a stiff non resonant cabinet with separate acoustic chambers for each driver and a well-tailored first order phase and amplitude coherent X-over with the best components

Frequency response:

40 Hz-35 kHz

Sensitivity:

88 dB/W/m

Impedance:

4 Ohm

Recommended power (max):

30 to 120 watts

X-Over:

6 db/ Oct. 600, 2,000 Hz

Max. Sound Pressure at 1m:

112 dB

Weight:

45 kg each

Dimensions (height, width, depth):

115 cm x 30cm x 30 cm
