

## *Starke Sound™*

### *IC-H2*

## *Revealing Hidden Depths*

The IC-H2 will set a new standard in its class. Beyond its compact and sophisticated appearance, the IC-H2 is bursting with personality and serious technology. This 3-way floorstanding speaker not only retains the essence of Starke Sound Halo DNA but also contains cutting-edge Starke Sound technology. The IC-H2 boasts the latest evolution of the legendary Starke Sound LMF® and the newest and most innovative NeoPower™ N50H magnet driver, all housed in a signature industrial design cabinet. The technology in the IC-H2 pushes boundaries for unparalleled sensitivity and delivers an impressive and detailed soundstage supported by an articulated bass. More depth, detail and bass, the IC-H2 will transform your perception of sound.

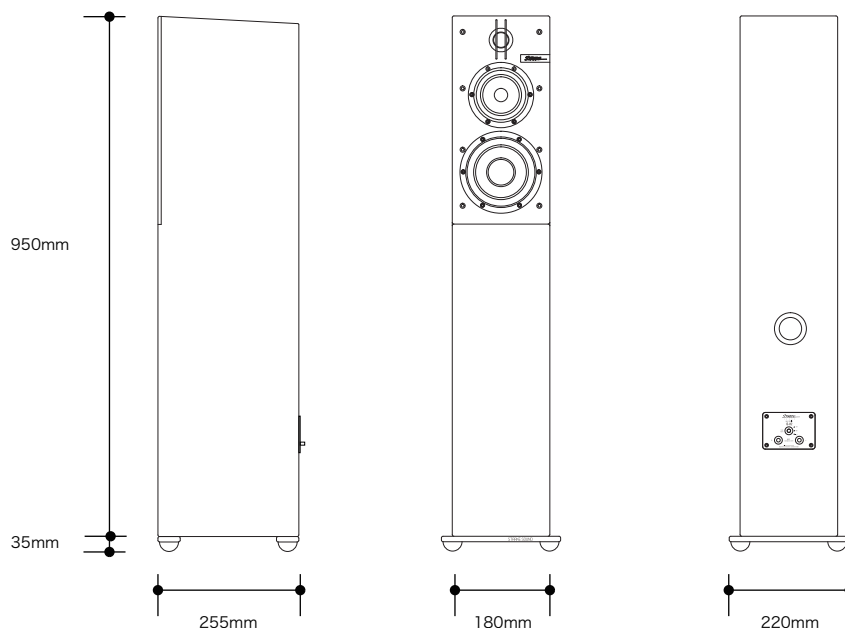

## *Key Features*

Broad frequency response from 28 Hz-28 kHz

Superb bass output from a compact size

Ideal for both home theater and hi-fi applications

New materials and technologies (NeoPower™ and Nomex®) deliver more natural and powerful sound

## Technical Specifications

|                              |                                                                                                                                                           |
|------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Max SPL output (1m)          | 113dB                                                                                                                                                     |
| Frequency response (±2dB)    | 28Hz - 28kHz (Elite)                                                                                                                                      |
