

STENHEIM

SWISS MADE AUDIO EXCELLENCE

REFERENCE INFINITE

REFERENCE INFINITE

You dreamed of the REFERENCE STATEMENT : here is the REFERENCE INFINITE in a more compact format.

This speaker system (2 towers and 2 subs) was created in pure and well-studied lines to create not only a superb look, but unparalleled sound rendition, based on the concept behind the already well-reputed REFERENCE STATEMENT. It will enthral future owners with its exceptional dynamic and musicality, its three dimensional space, and vibrantly alive, natural soundstage.

Then there's its flawless rendering of any genre of music, along with impressive sound levels from the deepest bass to the highest notes. The REFERENCE INFINITE is also distinct in its exceptional ease-of-use, thanks to remote operation of the MTM couple (Medium Tweeter Medium) diffusion angle.

It also adapts to all amplification systems and rooms, thanks to the 2 monaural 3way active crossovers (medium-bass-sub bass) included in 2 separate CH Precision housings.

Ignoring the trendy, our products are built to stand the test of time. This is why we've chosen to design a loudspeaker that highlights the beauty and sanctity of music over all else.

With STENHEIM, rediscover engagement with music and sensation of live listening.

Forget technology, simply experience music.
