Wind Design

Design Finishes

Dusk

Ice

Fire

Going a step further than the original Wind Floorstanding, the Wind Design is refined to the highest sonic tolerances. With its hand-selected drivers and exclusive crossover components, the Wind Design offers ultra-broad all-axis sound staging performance. Designed like a musical instrument, the Wind Design delivers sonic expressivity to the absolute, pulling you inside the music.

Dressed for uncompromising musical renditions, the Wind Design's six-layer multicoated finishes results in additional structural rigidity. The deep luster finish not only adds shine but also allows for a more cohesive acoustic behavior. At the base of the front baffle is a new articulating claw that is adjustable for slanting back the baffle for precise spatial alignment. The rear skid-plate decoupling system allows for additional spatial performance.

Magnetic grill included.

Dimensions

Width	10.7" / 27.18 cm
Height	44.3" / 112.522 cm
Depth	14" / 35.56 cm

Specifications

Break-in time	200 - 250 hours
Frequency Response	24 Hz - 21 kHz $\pm$ 3 dB
Impedance	4 ohms
Crossover Frequency	Woofer to mids, 2nd order / 2nd order Mids to tweeter, 2nd order / 2nd order
Recommended Power	80 - 250 W
Sensitivity	87 dB
Woofer	8.5" / 21.59 cm cast frame, specially damped. High power handling. Long throw characteristics.
Mid-Woofers (2)	3" / 7.62 cm voice coil. Cast frame. High power handling. Wrap-around neodymium magnet structure. Accurate linear throw.
Tweeter	1" / 2.54 cm alloy dome flexible linear suspension. Special low resonance tweeter with chamber.
