

Back to the fundamentals
of a lively, powerful and dynamic
music reproduction.

Rather than following the popular trends in speaker building we have chosen to follow the nature — getting as close as possible to the tonality and dynamics of live music. The natural tonal colors of voices and instruments, along with the tremendous sense of authority and rock solid 3D stereo image, ensures an experience that simply must be heard to be believed and appreciated.

Timeless, elegant visual aesthetics
based on customizable finnish which
fits into every environment.

Our team has always felt that visual aesthetics don't need
to oppose the acoustic demands, but rather they go hand in hand
with each other. The combination of a simple and elegant outer
shape and strikingly fresh visual details results in a very harmonic
and aesthetic presentation. Every single detail, and all technological
aspects, reflect our philosophy and our search of perfection.

Tweeter

1" compression driver with 38mm voice coil. Extended high frequency response up to 30 kHz. The 8" waveguide ensures uniform in-room power response and optimized directivity.

Midrange

8" midrange equipped with demodulating ring for low distortion and 51mm voice coil. "The curvilinear, light paper cone is formed using a unique woodpulp composition designed to achieve the best possible rigidity, stiffness and natural tonal characteristics."

Woofers

10" long excursion hard paper cone woofer, equipped with 3" copper voice coil for improved power handling and low compression. Long life silver lead wires. Low damping rubber surround for improved dynamic linearity. Non-conducting fiber glass voice coil former for minimum damping and excellent responsiveness.

Technical Specifications

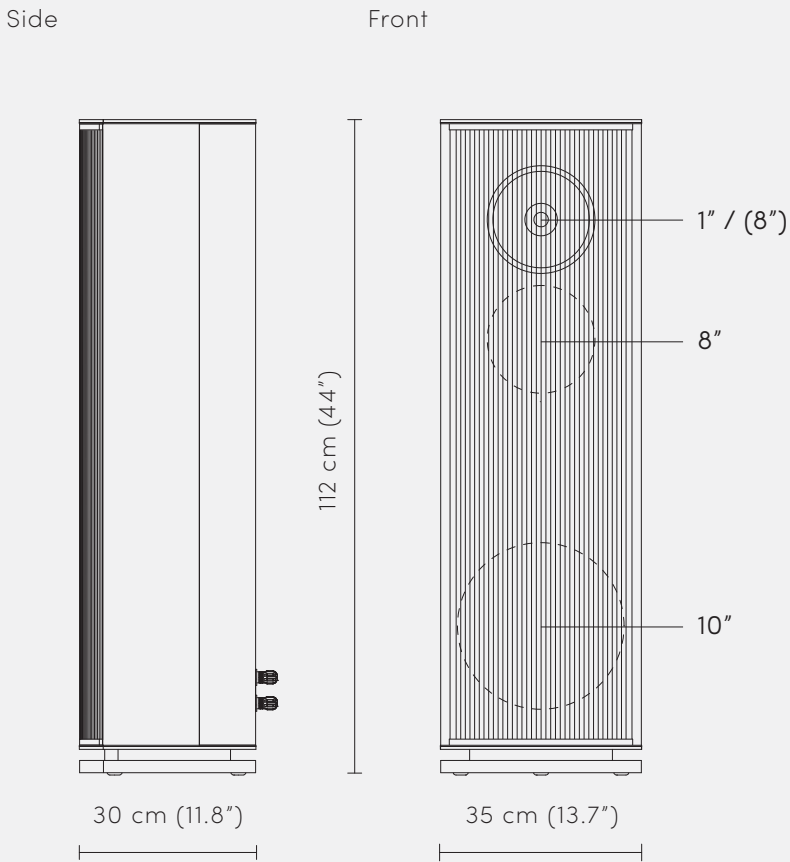

Loudspeaker / System

Tweeter driver diameter	38 mm + 8" waveguide extension
Midrange driver diameter	200 mm
Bass driver diameter	270 mm
Sensitivity	88 dB
Frequency response	40 - 30.000 Hz +/- 3 dB
Impedance	5 Ohm
Power	200 W Continuous

Customization options / Colours & Finishes

Enclosure	Inox details
 Natural Veneer	 Inox - Polished
 Black Ash Veneer	 Inox - Gold plated (surcharge)
 Piano Black (surcharge)
