Enjoy GIYA G2.

GIYA G2 SERIES 2

THE PURSUIT OF PERFECTION

The GIYA G2 follows the same design as the larger G1 and G1 Spirit – and for exactly the same reasons. The enclosure’s radical shape is designed to eliminate resonance and reflection, which colour and cloud the music.

The G2 incorporates much of the same technology, too, including our new metal-dome D26 tweeter and D50 mid-driver, both with our patented Tapered Tube loading. Lower-mid frequencies are deftly handled by our C125S driver, with the evergreen C175 taking care of the bass. The result is huge, natural, transparent sound that faithfully delivers every detail, without ever becoming fatiguing.
